

Where Ideas Take Shape End-to-End Solutions by Vasantha

vasantha

The Vasantha Group at a Glance

Dear customers, for over three decades, we have been a leading international mold manufacturing and service company with around 750 employees worldwide (as of 08.2025). Our group includes the 3 companies Vasantha Tool Crafts, Savya Automation and VTW.

Our customers are at the heart of everything we do, and we strive to build strong, long-lasting relationships with them. Our team of experts is dedicated to providing personalized solutions that deliver the results our clients are looking for. We offer a wide range of products and services to serve three key

segments – medical solutions, packaging solutions and special solutions. Our multi-faceted approach allows us to provide holistic problem-solving services to our clients, making us a one-stop-shop for all their needs. As we look to the future, we remain committed to our core values of innovation, quality, and customer satisfaction. We look forward to working with you to achieve your goals.

Sincerely,

Varun Reddy

Director of Sales, Vasantha Group

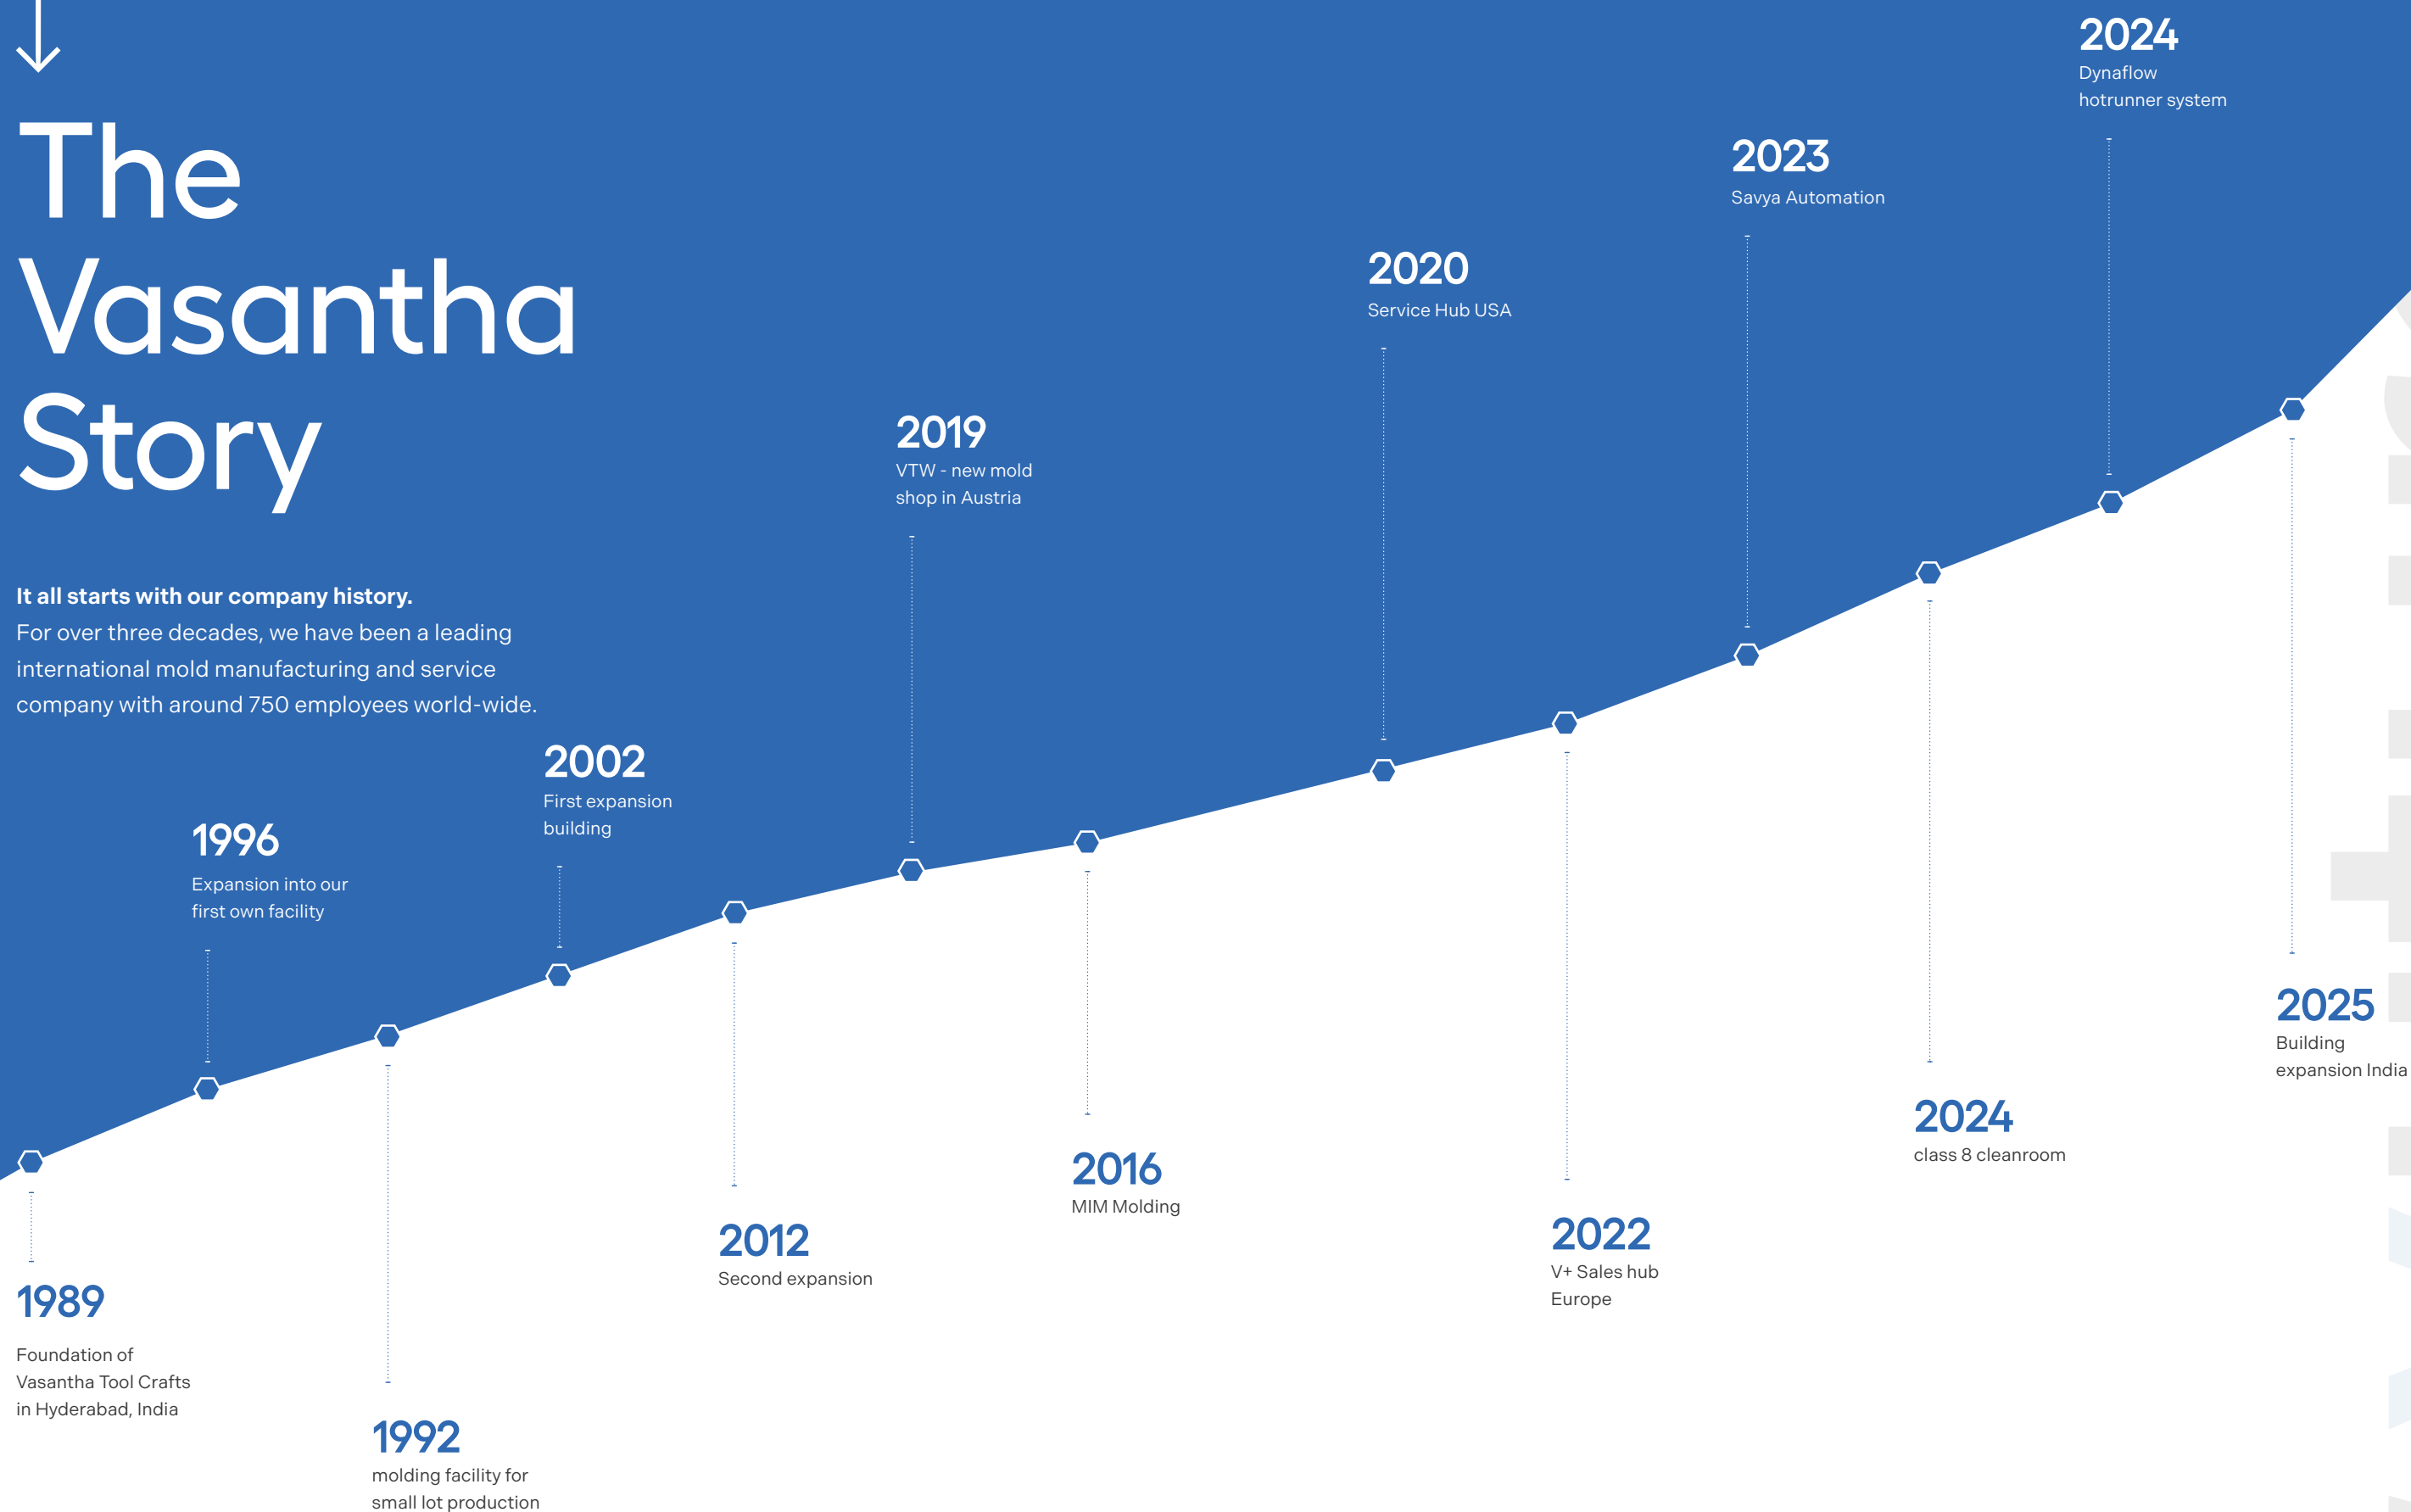

The Vasantha Story

It all starts with our company history.

For over three decades, we have been a leading international mold manufacturing and service company with around 750 employees world-wide.

Mr. Dayanand Reddy
Founder and Director

1989
When it all started

Our Credo from the Beginning: Commit Less, Deliver More.

It all started in a rented facility. We began building high-quality molds. Back then, no one would have believed it would grow into something so big. Today, we are number one in India – and one of the largest mold makers worldwide. Our highest goal then and now: customer satisfaction.

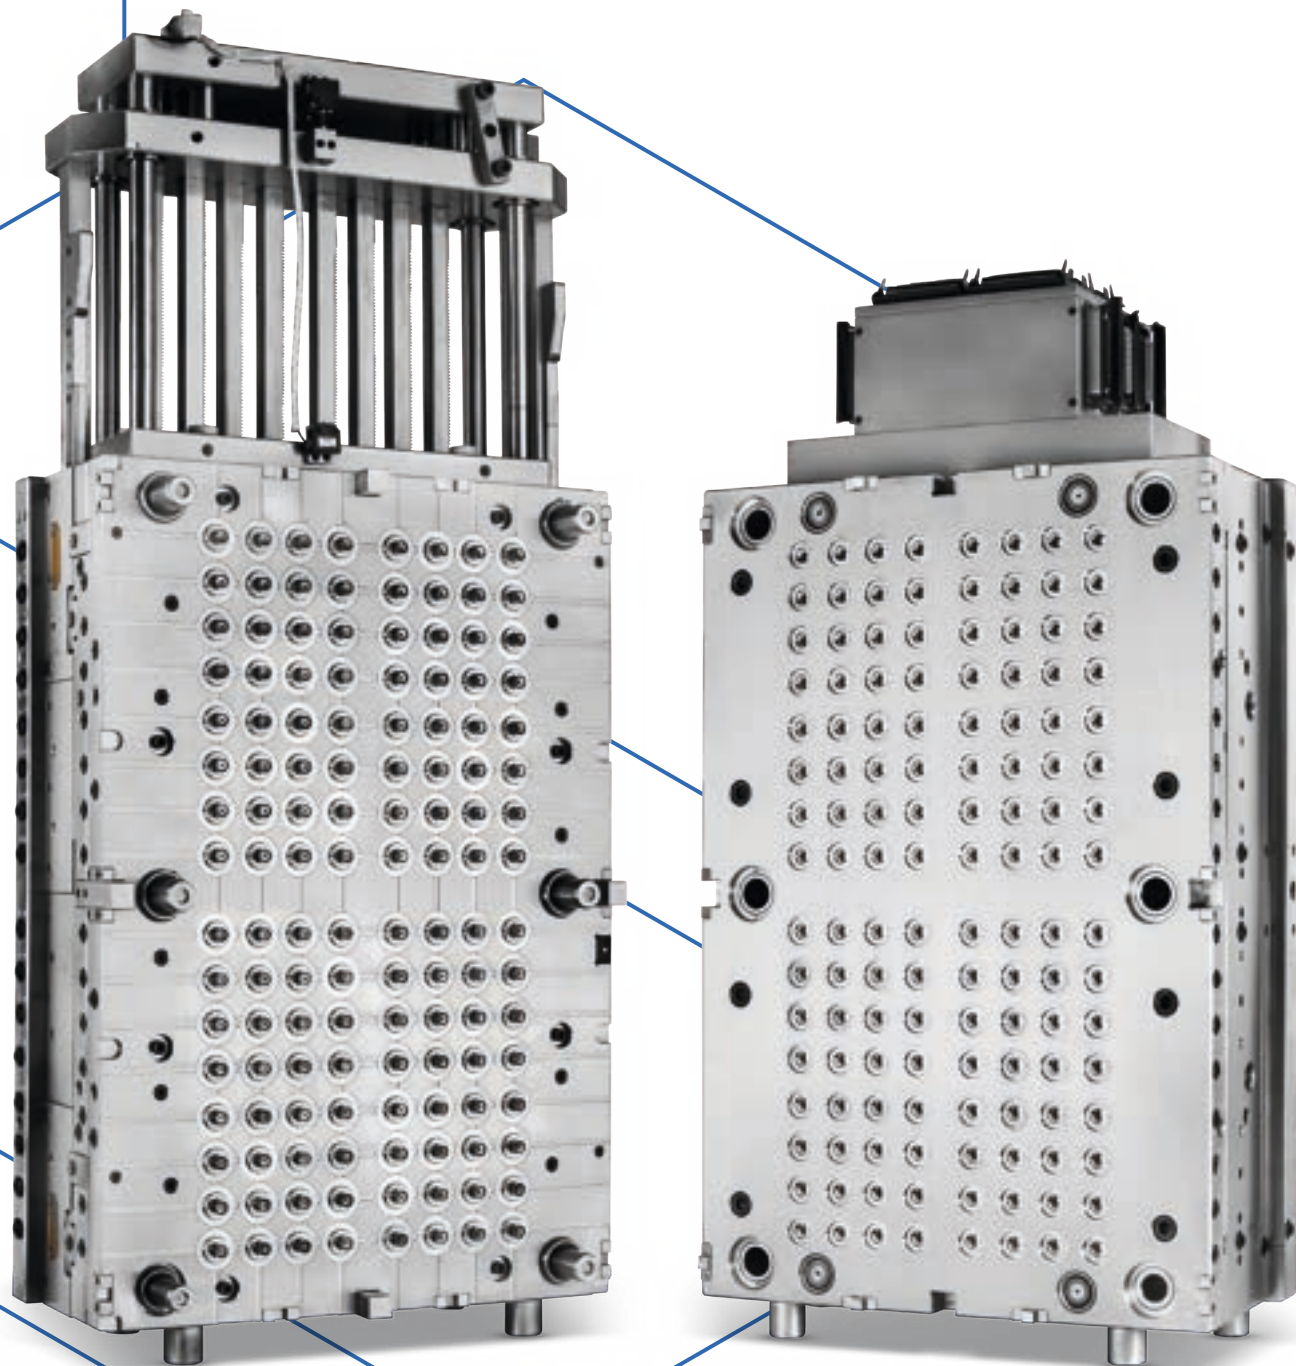

1997
Vasantha develops
Mold for a Cap

Can You Build a Mold for This Closure? Yes, We Can.

It all started with a Cap: Around 1995, a customer came to us with a closure cap and asked if we could build a mold for it, we said: why not? We far exceeded their expectations. And so, our journey into the closure cap sector began. From then on, we continuously reinvested our profits into expansion and new, advanced technologies, including robotic cells to automate our processes.

2019
Vasanth expands
to Europe

We Gained 80 Years of Experience in Mold Building Overnight.

After just nine months of construction, the European Vasanth headquarters, known as VTW, started operating in Lower Austria in May 2021. With VTW, we also created a competence and manufacturing center for molds in the medical and pharmaceutical fields. We did not only extend our business to Europe and increase our capacity, but we also gained more than 40 years of knowledge in mold building. Despite being one of the largest and most modern global mold makers, we were missing something: We weren't able to offer automation solutions!

2022
Foundation of
Savya Automation

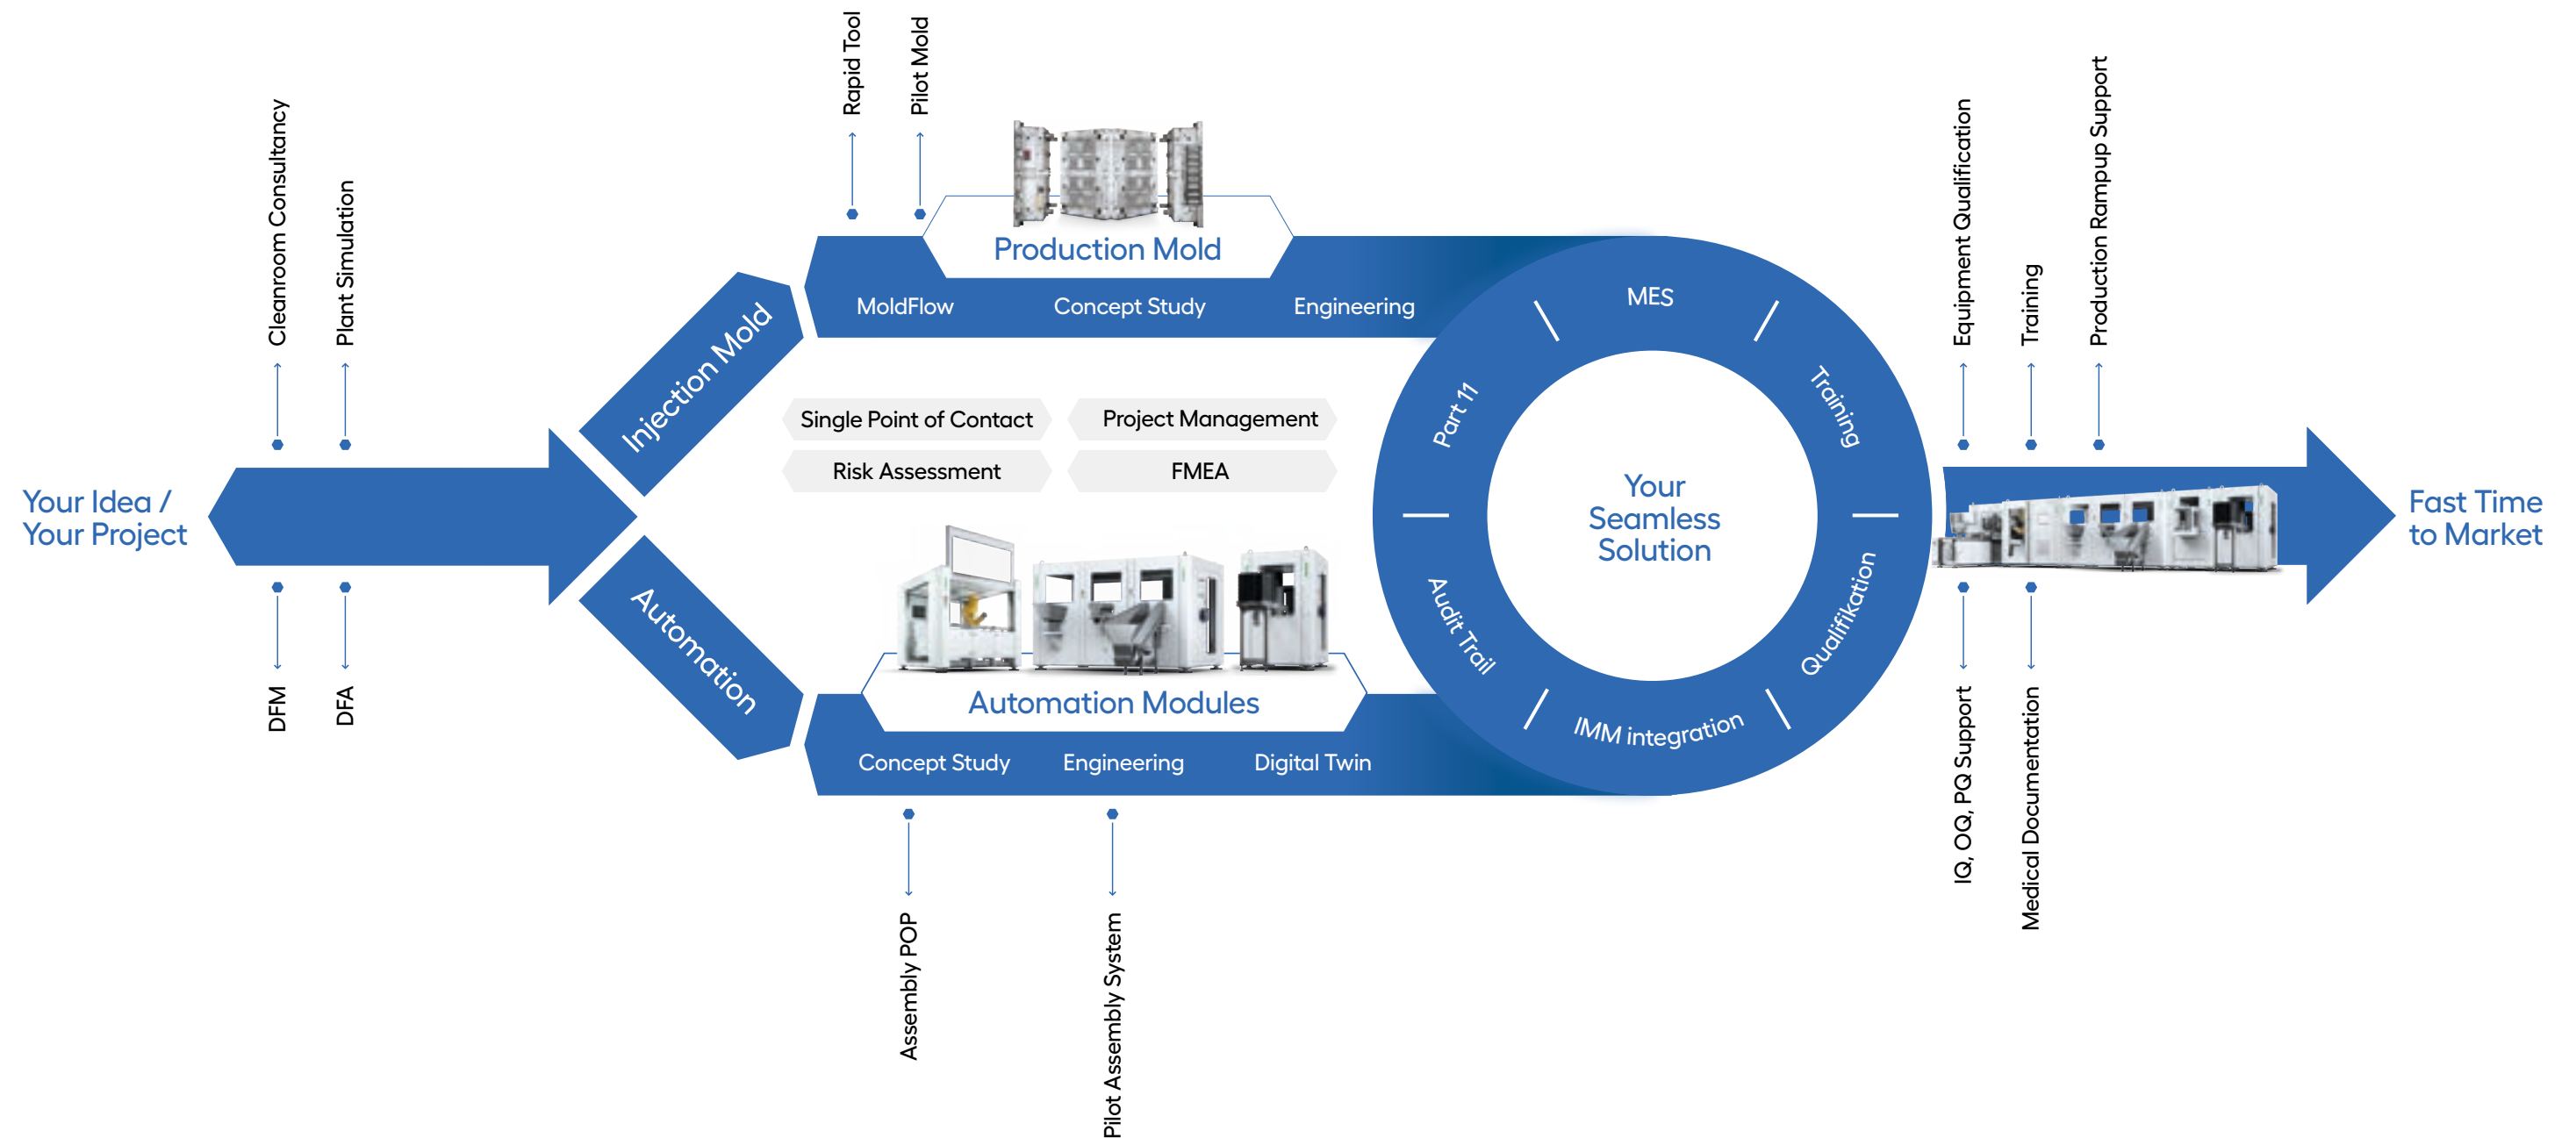

Expanding Our Portfolio with Automation Solutions.

The increasing demand for sophisticated and innovative solutions in the plastics industry drove us to extend the Vasantha business to build automation systems and deliver complete turnkey solutions for our customers. From pellet to pallet is the idea behind the Savya Automation business - the youngest company within the Vasantha group. We hired the most experienced engineers in the market and opened our facilities in Waidhofen, Austria, and Hyderabad, India, in 2022.

Our Solutions Are Appreciated by Customers around the World.

Executing End to End Turnkey Projects.

As a global leader in the industry, we have established subsidiaries in India and Austria, enabling us to expand our reach and offer our expertise to customers around the world. Our global footprint allows us to deliver exceptional solutions and provide unparalleled support to our customers.

Our Companies.

Vasantha Tool Crafts

VTC specializes in the design and manufacture of high-precision molds.

Savya Automation

Savya offers innovative automation solutions for injection molding processes.

VTW

VTW excels in the production of high-precision molds for various industries.

Our Solutions Are Appreciated by Customers around the World.

Empowering industries through innovative engineering, molding and automation solutions.

With our specialization in delivering comprehensive solutions, Vasanth Group is your trusted partner in the healthcare, packaging, and industrial sectors. We excel in high-precision molds and advanced automation systems, optimizing production processes for exceptional results.

Healthcare Solutions

Our healthcare solutions cover a wide range of products, including infusion devices, syringes, laboratory equipment, and more.

Packaging Solutions

Our packaging solutions encompass a diverse range of products, including containers, closures, and packaging systems tailored to meet your specific needs.

Industrial Solutions

We cater to diverse industries, such as oral care, with our customized offerings. We provide tailored answers to meet your unique requirements.

End-to-End Solution.

Leave behind the hassles of the past. Vasantha is your one-stop solution provider, offering a streamlined path for your projects. Step into the #vuture, where our Turnkey Solutions effortlessly turn your innovative ideas into reality.

360° Services

Prototypes, Additive Manufacturing, MIM, LSR, Cleanroom Planning, Cleanroom Molding, On-Site Support, Virtual Twin, Plant Simulation, Material Flow Simulation, Validation Support

We Build a Better World.

Sustainability is a key part of our strategy. We consume and produce only required volumes for each of our projects, with minimal waste, and use high-grade materials. In USA, we also support local organizations that promote conservation and sustainability such as MetroParks.
