

It All Starts With a Mold.

Your One-Stop-Shop for your injection molding,
automation and post-molding needs.

More Than 70 Years of Inspiring Technology

At Vasantha, we place a big focus on customer support, offering one-stop shopping solutions for all of your molding needs. Our capabilities range from cleanroom planning to production support, including the design of injection molding machines, molds, and automation solutions.

We pride ourselves on being more than just a tool making company, and are equipped to handle the entire production process on demand with our modern plastics manufacturing facility. As a medical device certified company, we adhere to strict standards and guarantee quality in everything we do.

A Clear Vision The Vasantha Story

It All Starts With a Mold. Our slogan and a clear commitment to providing innovative solutions for all your molding needs. Our products are used worldwide, from life-saving medical devices to everyday consumer products found on store shelves. From start to finish, our molds are the foundation of the products that enhance people's lives every day.
